Address: 10652 US 31, Montague, MI 49437

Phone: (812) 525-6800

Capabilities Statement:

Bearings & Powertrain Solutions is a specialized wholesale distributor focused on sourcing, supplying, and supporting hard-to-find bearings, powertrain components, and industrial motion products. We serve manufacturers, maintenance teams, government agencies, and equipment rebuilders who rely on precision, reliability, and rapid fulfillment for mission-critical applications.

Corporate Data:

CAGE: 15S69

UEI: R335Q6MVT9R1

NAICS: 423840

Entity ID: 803255845

Entity Type: LLC

Differentiators:

We differentiate through technical expertise and rapid, precision service. Factory-trained technicians diagnose problems, specify correct replacements, and prevent failures. Our extensive regional inventory enables **same-day** delivery. Every order is backed by engineering, failure analysis, and field service – reducing downtime, improving reliability, and extending equipment life.

Core Competencies:

Application Engineering & Technical Support

Factory-trained specialists diagnose failures, specify the correct bearing and power-train solutions, and prevent repeat issues across demanding industrial applications.

Comprehensive Inventory & Same-Day Delivery

One of the region's most extensive bearing and power-train inventories, enabling immediate availability and same-day fulfillment for critical components.

Quality Assurance & Failure Prevention

Proven sourcing, counterfeit mitigation, and failure analysis ensure consistent performance, extended equipment life, and reduced operational risk.

Industrial MRO & OEM Support

Long-term support for MRO, OEM, and industrial customers through responsive service, accurate cross-referencing, and field support.
